CARTINDUSTRIA EUROCARTA

CATALOGO / CATALOG

COMPANY / AZIENDA

Always committed to seeking the right compromise between softness and resistance, Cartindustria Eurocarta, thanks also to the great variety of its offer, both as product lines and as a variety of raw materials, is a well-known company through the world of professional tissue. Whether it is the precious cellulose of the CENTOXCENTO line and the inexhaustible potential of TECNOCELL, ECONET and BLUELINE solutions, Cartindustria Eurocarta offers a range of products that covers all the needs of today's and tomorrow's market. All our product innovation for tailor-made service excellence. With the strength of an industrial tradition of over 40 years, we design every day the best solutions for the professional tissue market: cellulose products, ecological paper products as well as custom-made lines. The goal is to respond to the needs of a changing market, getting closer and closer to the needs of each of the professionals who are part of it.

/ Da sempre impegnata nel cercare il giusto compromesso tra morbidezza e resistenza, Cartindustria Eurocarta grazie anche alla grande varietà di offerta, intesa sia come linee di prodotto che come varietà di materie prime, è un'azienda affermata in tutto il mondo del tissue professionale. Sia che si tratti delle pregiate cellulose della linea CENTOXCENTO che delle inesauribili potenzialità delle soluzioni TECNOCELL, ECONET e BLUELINE, Cartindustria Eurocarta offre una gamma di prodotti che copre tutte le esigenze del mercato di oggi e di domani. Tutta la nostra innovazione nel prodotto per un'eccellenza del servizio su misura. Con la forza di una tradizione industriale lunga oltre 40 anni, progettiamo ogni giorno le migliori soluzioni per il mercato del tissue professionale: dai prodotti in cellulosa ai prodotti in carta ecologica fino alle linee create su misura. Tutto con un solo obiettivo: rispondere alle esigenze di un mercato che cambia, avvicinandosi sempre più alle necessità di ciascuno dei professionisti che ne fanno parte.

A large white industrial robotic arm is positioned in a warehouse setting. The arm is reaching towards a pallet of cardboard boxes. The background is filled with numerous pallets of cardboard boxes stacked high. The scene is viewed through a safety fence. The text "EUROCARTA" is overlaid in the center, and "CARTINDUSTRIA" is below it. On the right side of the image, the text "SABA AUTOMATION" and "www.sabautom.com" are visible on the robotic arm's structure.

ECOLABEL

The ecological European label, also known as Ecolabel, is a registered European trademark. It is used to certify certain products and services with low environmental impact offered by companies. The Ecolabel trademark ensures that the product has previously been studied and analyzed both from the point of view of environmental impact, within its entire Life Cycle, and from the point of view of social sustainability, which takes into consideration eventual consequences on the health and safety of the consumer.

L'Ecoetichetta europea, detta anche Ecolabel, è un marchio europeo registrato e utilizzato per certificare alcuni prodotti e i servizi a basso impatto ambientale offerti dalle aziende. Il marchio Ecolabel garantisce che il prodotto è stato precedentemente studiato e analizzato sia dal punto di vista dell'impatto ambientale, all'interno del suo intero Ciclo di Vita, sia dal punto di vista della sostenibilità sociale, che tiene in considerazione le eventuali conseguenze sulla salute e sulla sicurezza del consumatore.

FSC

FSC certification aims at the correct forest management and traceability of derived products. The FSC logo ensures that the product has been made from raw materials deriving from forests correctly managed according to the principles of correct forest management and chain of custody. The FSC certification scheme is independent and third-party.

La certificazione FSC ha come scopo la corretta gestione forestale e la tracciabilità dei prodotti derivati. Il logo di FSC garantisce che il prodotto è stato realizzato con materie prime derivanti da foreste correttamente gestite secondo i principi della corretta gestione forestale e della catena di custodia. Lo schema di certificazione FSC è indipendente e di parte terza.

PEFC

PEFC is an international initiative based on the understanding of stakeholders in the implementation of sustainable forest management at national and regional level. Representatives of forest owners and poplars, end consumers, users, freelancers, as well as the world of the wood and craft industries participate in the development of PEFC. Among the PEFC objectives is to improve the image of forestry and the forest-wood supply chain, providing in fact a tool for market that allows wood and forest products from sustainably managed forests and plants to be marketed.

Il PEFC è un'iniziativa internazionale basata su una larga intesa di parti interessate all'implementazione della gestione forestale sostenibile a livello nazionale e regionale. Partecipano allo sviluppo del PEFC i rappresentanti dei proprietari forestali e dei pioppeti, dei consumatori finali, degli utilizzatori, dei liberi professionisti, del mondo dell'industria del legno e dell'artigianato. Tra i suoi obiettivi si segnala quello di migliorare l'immagine della selvicoltura e della filiera foresta-legno, fornendo di fatto uno strumento di mercato che consenta di commercializzare legno e prodotti della foresta derivanti da boschi e impianti gestiti in modo sostenibile.

CE

The CE marking is a fulfilment to be carried out by the manufacturer for all products covered by Community directives on medical devices. The affixing of the CE mark and the preparation of technical documentation showing compliance with these Directives must be carried out by the manufacturer or his surrogate. The documentation states that the product complies with safety and health, and can be used, also together with other medical devices, without harming the patient.

La marcatura CE è un adempimento che il fabbricante deve effettuare per tutti i prodotti disciplinati dalle direttive comunitarie inerenti i dispositivi medici. L'apposizione del marchio CE e la redazione della documentazione tecnica che rechi evidenza del rispetto delle richiamate direttive deve essere eseguita dal fabbricante o da un suo sostituto. In tale documentazione si dichiara che il prodotto è conforme ai requisiti di sicurezza e salute, e può essere utilizzato, anche insieme ad altri dispositivi medici, senza recare pregiudizio al paziente.

PRODUCT LINES / LE NOSTRE LINEE

CENTO X CENTO

The products of the CENTO X CENTO line are made of high quality pure cellulose: the coupling of the plies, the great softness and the uniform and homogeneous surface, allow high performances. Suitable for every need, CENTO X CENTO makes the difference, thanks to its main feature: 100% Pura Cellulose.

/ I prodotti della famiglia CENTO X CENTO sono realizzati in pura cellulosa di elevata qualità: l'accoppiamento dei veli, la grande morbidezza e la superficie uniforme e omogenea, consentono elevate performances. Adatta ad ogni esigenza, CENTO X CENTO fa la differenza, grazie alla sua caratteristica principale: 100% Pura Cellulosa.

ECONET

This product is suitable for contact with dry food only.

ECONET is a family of ecological papers, which combines the excellent quality of the pulp, the guarantee of an environmentally care product. The regenerated raw material of this range of products is managed in compliance with the principles of environmental protection. The quality of the raw materials guarantees a good homogeneity of the products. The freedom to make an ethical and economic choice.

/ ECONET è una famiglia di carte ecologiche, che unisce all'eccellente qualità dell'impasto, la garanzia di un prodotto attento all'ambiente, infatti è composta da materie prime rigenerate gestite nel rispetto dei principi di salvaguardia ambientale. La qualità delle materie prime poi garantisce una buona omogeneità dei prodotti. La libertà di fare una scelta etica ed economica.

TECNOCELL

TECNOCELL line is characterized by the right balance between cost and quality. The high white degree, combined with the high performance of the product, allows its use in various fields.

/ TECNOCELL è una famiglia di prodotti caratterizzati da un giusto equilibrio tra economicità e qualità. L'elevato grado di bianco, unito alle alte prestazioni del prodotto, consente l'utilizzo in svariati campi.
